SUMMARY

Third-year Information Systems student at the University of Information Technology (VNU-HCM) with a solid academic background and practical experience in web and mobile software development. Strong foundation in system logic and software engineering principles, with a focus on building efficient, functional, and user-centric digital products. A proactive learner with a dedicated approach to software quality and effective collaboration within development teams. Seeking an internship role to contribute to real-world projects and grow in a professional production environment.

EDUCATION

University of Information Technology (VNU-HCM) Bachelor of Science in Information Systems, GPA: 8.21/10.0	Ho Chi Minh City, Vietnam 2023 – Present

CERTIFICATIONS

TOEIC Listening & Reading - Score: 795/990 IIG Vietnam	Issued: Sep 25, 2025
TOEIC Speaking & Writing - Score: 300/400 IIG Vietnam	Issued: May 15, 2026
Foundations of User Experience (UX) Design Google	Issued: June 4, 2026
Foundations: Data, Data, Everywhere Google	Issued: June 5, 2026
AWS Academy Graduate - Cloud Architecting Amazon Web Service	Issued: Apr 27, 2026
AWS Academy Graduate - Microservices and CI/CD Pipeline Builder Amazon Web Service	Issued: Feb 5, 2026

SKILLS SUMMARY

- Engineering:** System Design, Agile/Scrum, OOP, Microservices, RESTful API.
- Languages:** HTML/CSS, JavaScript, Java, C++, Python.
- Databases:** MS SQL Server, Oracle, MongoDB Atlas.
- Tools:** AWS, Android Studio, Git/GitHub, Figma, Visual Studio.

PROJECTS

- MyHealthCare – Hospital Management Web App | Front-end developer** Oct 2025 - Jan 2026
 - Booking System:** Developed highly responsive user interfaces for patients to seamlessly schedule medical appointments and enabled real-time dashboard updates for doctors to manage calendars.
 - Frontend Engineering:** Implemented component-driven UI architecture, optimizing client-side rendering speed and cross-browser compatibility to improve direct user accessibility to complex healthcare data.
 - Tech Stack:** JavaScript, HTML/CSS, Figma, PostgreSQL/MongoDB Atlas, Vercel.
- Conscia – App Usage & Intent Tracking App | Full-stack developer** Mar 2026 - May 2026
 - Monitoring & Analytics:** Engineered a low-overhead background service for real-time usage tracking, ensuring secure local data encapsulation while delivering detailed screen time insights and digital habit analytics.
 - Smart Alerts:** Implemented an automated background warning alert mechanism leveraging Java and strict object-oriented principles to guarantee efficient thread execution and minimal battery consumption.
 - Tech Stack:** Java, Android Studio, MongoDB Atlas, Figma, Render.
- Digital Notebook – Scheduling & Note-taking website for UIT students | Full-stack developer** Apr 2026 - Now
 - Monitoring & Analytics:** Designed and deployed a centralized synchronization architecture linking interactive calendars with dynamic markdown notebooks, helping students to flexibly handle deadlines and academic records.
 - Full-stack Architecture:** Built robust, scalable backend RESTful APIs using Spring Boot and integrated an optimized, state-managed user interface with Vite to ensure data integrity across features.
 - Tech Stack:** Spring Boot, Vite, HTML/CSS, MongoDB Atlas, Vercel, Render.
